**Self-adjusting,
convertible air
therapy system**

Non-powered reactive
air pressure redistribution

Powered therapy when
easy-to-use control unit
is connected

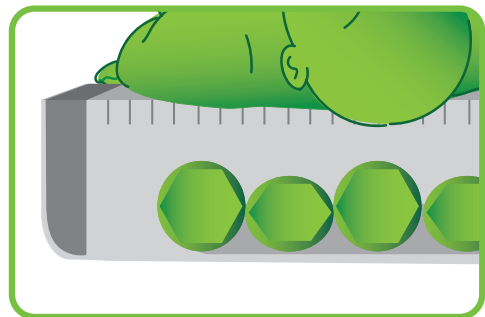

Treatment of stage
1-4 pressure injuries

science, safety, simplicity

 **savaria®**

SPAN PressureGuard Span-Care®

Use non-powered mode for pressure injury prevention in at-risk patients, early intervention of existing pressure injuries, or when a step-down surface is called for. Its self-adjusting system of synchronized air cylinders and pressure relief valves provide the correct level of immersion and envelopment for any user.

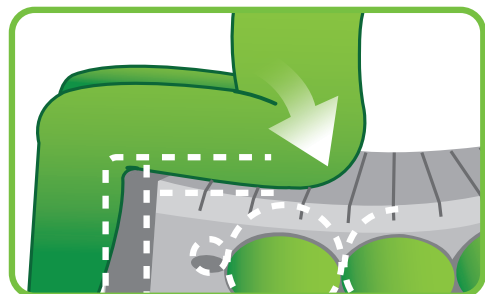

Integrated air system/engineered foam shell with "Safety Edge" bolster system delivers superior edge-of-bed safety, stability and comfort.

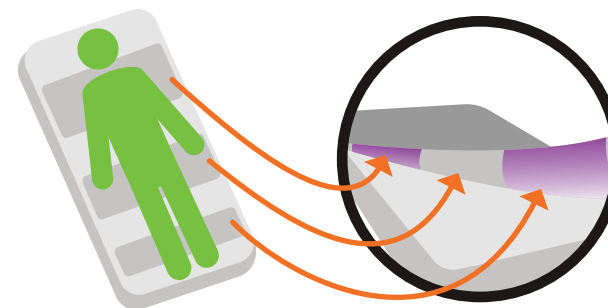

Unique Geo-Matt® Design

Creates tissue-friendly, anti-shearing surface with more than 800 individually responsive cells.

Safety Edge

Ensures safer transfers while minimizing the risk of falls and patient entrapment.

Add the simple, digital control unit when powered treatment modalities are necessary. Features include:

- Alternating pressure mode
- Powered flotation mode
- Adjustable comfort settings
- Audible low pressure alarm
- Timed auto-firm mode

Premium Stretch Fabric

- Polycarbonate-fortified LifeSpan® stretch fabric provides outstanding resistance to the damaging effects of diluted bleach and other aggressive cleaners and disinfectants.
- Fluid-resistant, anti-microbial, anti-fungal, flame-resistant.
- Wipes clean in place

Shear Transfer Zones® cover design

Provides added shearing protection via silicone-coated, shear-minimizing fabric bands on the underside of its bi-directional stretch cover.

This proprietary design helps:

- Prevent heels, sacrum, and scapula from "digging into" surface
- "Glide" user back to original position following HOB elevation
- Protect against damaging effects of micro shear, macro shear, and rotational (pivot-induced) shear

Span-Care®

ITEM #	DESCRIPTION
SC753629	75" L x 36"W x 7"H
SC803629	80"L x 36"W x 7"H
SC843629	84"L x 36"W x 7"H
SC804229	80"L x 42"W x 7"H
SC844229	84"L x 42"W x 7"H
SC85V29	Span-Care Convertible for recessed deck frames
5900	Add-on control unit

COVER

Premium LifeSpan® coated stretch fabric with Shear Transfer Zones® design

CONTROL UNIT

Weight	6.3 lbs.
Voltage	120 AC
Frequency	60 Hertz
Dimensions	12" x 7.5" x 5"
Max Current	1.0 Amp
UL Listing	Certified to IEC 60601-1-1

WEIGHT LIMIT

Supports up to 500 lbs. (400 lbs. in powered mode).
42" models: 700 lbs. (600 lbs. in powered mode).

MATTRESS WEIGHT

Mattress: approximately 25 lbs.
Control unit: 6.3 lbs.

WARRANTY

Mattress	5 years
Cover	2 years
Control Unit	18 months

FLAMMABILITY

Conforms to NFPA 101 (Life Safety Code); ASTM E1590; Cal Tech
Bulletin #117; 16 CFR Parts 1632 and 1633
