

SPAN PressureGuard Easy Air® LR

Alternating Pressure / Lateral Rotation Air Therapy Surface

Choice of two
therapies at the flip
of a switch offers
exceptional efficiency
for busy caregivers.

Ease of operation
and cleaning
make it equally
user-friendly in
facility or at home.

Minimizes risks
associated with
edge-of-bed/
entrapment issues
and patient transfers.

science, safety, simplicity

 **savaria®**

SPAN PressureGuard Easy Air® LR*

An industry-leading air therapy solution with proven superiority over typical roll-up treatment surfaces. Designed to enhance immersion, envelopment, shear reduction, treatment flexibility, caregiver ergonomics, and user comfort.

Treatment Flexibility

Select one of three therapy modes:

Alternating Pressure
Gently changes loading across the surface (15-minute cycle).

Float Mode
Provides active, powered flotation therapy.

Lateral Rotation
A versatile modality indicated for a variety of needs (15-minute cycle).

PressureGuard Design

Integrated air system/engineered foam shell with "Safety Edge" bolster system delivers superior edge-of-bed safety, stability and comfort.

Safety Edge

Ensures safer transfers while minimizing the risk of falls and patient entrapment.

Unique Geo-Matt® Design

Creates tissue-friendly, anti-shearing surface with 800 individually responsive cells.

Digital Control Unit

- Lightweight and quiet, it delivers an unmatched combination of treatment flexibility, ease of use, and dependability.
- Low Pressure indicator light and selectable audible alarm
- Power Failure indicator light and selectable audible alarm.
- Simple, indexed comfort adjustment.
- Timed (20-minute) "Auto Firm" mode for transfers, ADLs, & CPR.
- "Float" mode provides powered flotation therapy.
- "Alternate" mode changes loading in 10-minute cycle; controlled at mattress for choice of lateral rotation or alternating pressure therapy.

Outer Coverlet

Shear Transfer Zone™ cover design The UltraMax provides added shearing protection via silicone-coated, shear-minimizing fabric bands on the underside of its bi-directional stretch cover. This proprietary design helps:

- Prevent heels, sacrum, and scapula from "digging into" surface
- "Glide" user back to original position following HOB elevation
- Protect against damaging effects of micro shear, macro shear, and rotational (pivot-induced) shear

Inner Air Delivery Cover

- Dedicated air supply
- Directs constant stream of air
- Sweeps away moisture vapor before it can re-form as liquid
- Reduces maceration

*Easy Air is also available without Lateral Rotation.

WEIGHT RANGE

500 lbs all models (350 lbs effective limit in Lateral Rotation mode). 39", 42" and 53" widths accommodate wider, non-bariatric beds for users up to 500 lbs. Bariatric (Easy Air XL) models also available for users up to 1000 lbs.

FLAMMABILITY

Conforms to NFPA 101 (Life Safety Code); Cal. TB 117; ASTM E1590; and 16 CFR Parts 1632 and 1633.

COMPLETE SYSTEM

Includes Mattress, Control Unit, and Coverlet

To order coverlet only, add "CLT-" to part number (example: CLT-L8035LR). Mattress Weight approx. 22 lbs.

CONTROL UNIT

Dimensions	12" x 9.5" x 7"
Weight	6 lbs.
Leakage Current	< 250 micro-amps
Voltage	120 AC
Max Current	1.0 Amp
Frequency	60 Hertz
Conforms to:	ANSI/AAMI ES60601-1:2005 + C1:2009 + A2:2010 + A1:2012 CAN/CSA-C22.2 NO. 60601-1:2014; EN 60601-1:2006 + A1:2013; ANSI/AAMI HA60601-1-11:2015; CAN/CSA-C22.2 NO. 60601-1-11:2015; IEC 6060101-2:2014 (4th ed.); EN 60601-1-2:2014 (4th ed.)
