SPAN PressureGuard Custom Care® Convertible

Use non-powered mode for pressure injury prevention in at-risk patients, early intervention of existing pressure injuries, or when a step-down surface is called for. Its self-adjusting system of synchronized air cylinders and electrized reservoirs provide the correct level of immersion and envelopment for any user.

Air is the Star

The industry's only true air-based convertible surface, thanks to its proprietary Star Chamber™ air system design. Unlike typical convertibles comprised of solid foam blocks, it provides more than 90% of its support from air. Delivers "Air Superiority" in immersion and redistribution, in both powered and non-powered modes.

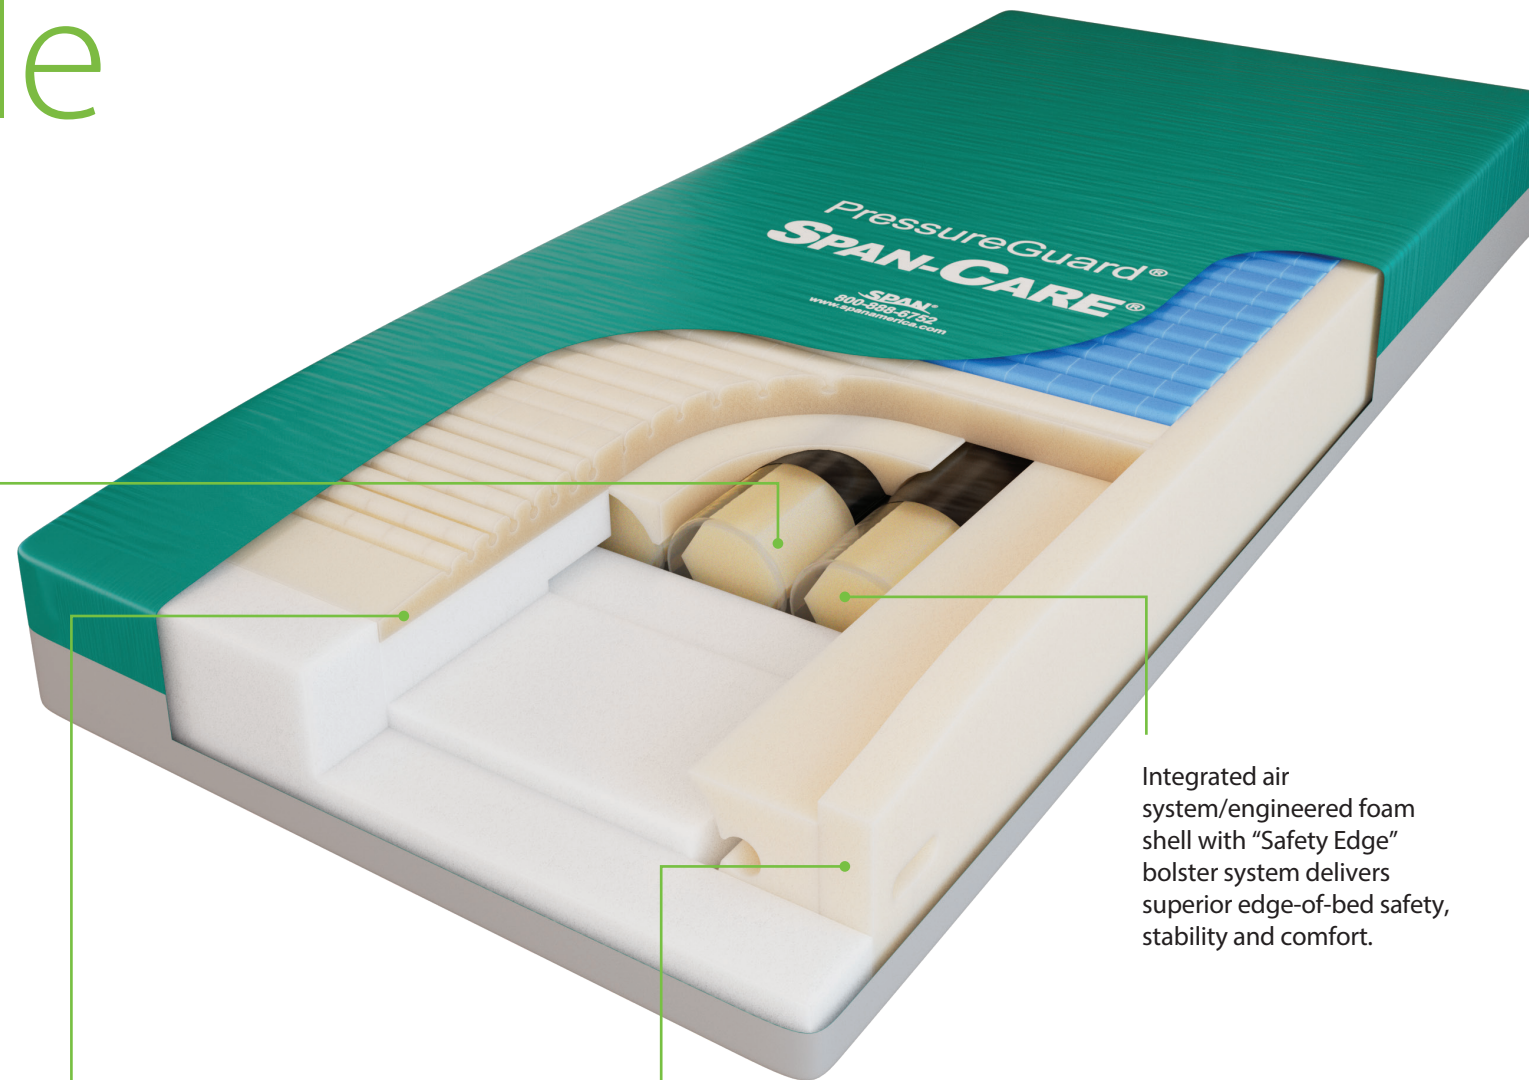

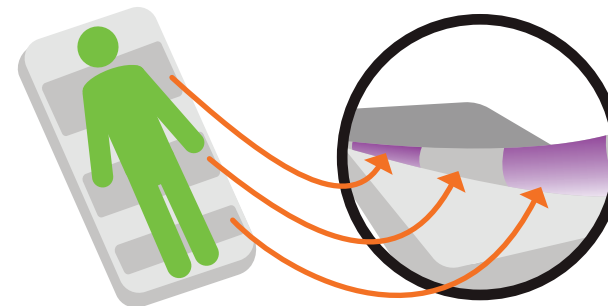

Unique Geo-Matt® Design

Creates tissue-friendly, anti-shearing surface with more than 800 individually responsive cells.

Safety Edge

Ensures safer transfers while minimizing the risk of falls and patient entrapment.

Integrated air system/engineered foam shell with "Safety Edge" bolster system delivers superior edge-of-bed safety, stability and comfort.

Ruggedized, add-on control unit delivers powered treatment modalities when necessary. Features include:

- Alternating pressure
- Lateral rotation
- Powered immersion
- Adjustable comfort settings
- Timed auto-firm
- "Disconnect" mode re-sets air system to ideal non-powered setting

Premium Stretch Fabric

- Polycarbonate-fortified LifeSpan® stretch fabric provides outstanding resistance to the damaging effects of diluted bleach and other aggressive cleaners and disinfectants.
- Fluid-resistant, anti-microbial, anti-fungal, flame-resistant.
- Wipes clean in place

Shear Transfer Zones® cover design

Provides added shearing protection via silicone-coated, shear-minimizing fabric bands on the underside of its bi-directional stretch cover.

This proprietary design helps:

- Prevent heels, sacrum, and scapula from "digging into" surface
- Helps "Glide" user back to original position following HOB elevation
- Protect against damaging effects of micro shear, macro shear, and rotational (pivot-induced) shear

Custom Care® Convertible

ITEM #	DESCRIPTION
CJ753629	75" L x 36" W x 7" H
CJ803629	80" L x 36" W x 7" H
CJ843629	84" L x 36" W x 7" H
26130	80" L x 42" W x 7" H
95724	84" L x 42" W x 7" H
CJ85V29	Custom Care® Convertible for recessed deck frames
6500	Add-on control unit

COVER

Premium LifeSpan® coated stretch fabric with Shear Transfer Zones® design

CONTROL UNIT

Weight	8.8 lbs.
Voltage	120 AC
Frequency	60 Hertz
Dimensions	14" x 10" x 5"
Max Current	0.4 Amp
UL Listing	Certified to IEC 60601-1

WEIGHT LIMIT

Supports up to 500 lbs. (350 lbs. in powered mode).

MATTRESS WEIGHT

Mattress: approximately 24 lbs.

WARRANTY

Mattress	5 years
Cover	2 years
Control Unit	2 years

FLAMMABILITY

Conforms to NFPA 101 (Life Safety Code); ASTM E1590; Cal Tech Bulletin #117; 16 CFR Parts 1632 and 1633
