HCPCS CODE

futuremobility.com

Adjustable. Easy to Transport.

FULLY ADJUSTABLE COMPONENTS

Adjust center of gravity, seat-to-floor height, foot rigging, footplate, armrest height to support an individualized setup.

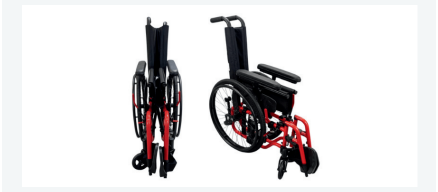

MULTI-ANGLE BACK CANES

Back cane angle adjusts from -9° to +9° in 3° increments for more flexible positioning.

RIGID ALUMINUM CROSS-BRACE

A single cross-brace with elliptical, heavy-duty tubing supports rigidity while maintaining easy folding.

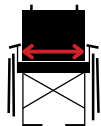

LIGHTWEIGHT, EASY-FOLDING FRAME

The folding design makes the wheelchair easier to transport and store between uses.
